Guying Kit

Guying Kit

The guying kit makes it possible to maintain all the lightning conductors and extension masts of the FRANKLIN France range as well as the pylons in metal lattice beams according to the type of installation desired and the wind region. It is particularly designed for Early Streamer Emission mounted on a support mast installed on rooftops using either a horizontal base plate (PLATMAT34 or PLATMAT42) or a telescopic three feet saddle (AFD3301FS) fitted with concrete ballast blocks (AFH8046DA), available separately. It is made up of a 50 m Ø 5.6 mm fiberglass crown, 3 turnbuckles, 6 anchor clamps, a 3-way guying collar, 3 Ø6 mm stainless steel shackles and a set of 3 expansion plugs Ø10mm.

This kit can be completed with the following accessories :
- Horizontal base plate (PLATMAT34 or PLATMAT42) OR a telescopic three feet saddle (AFD3301FS) with concrete ballast blocks (AFH8046DA),
- Fiberglass Anchor Clamp (AFD1051KU),
- Turnbuckle 1 eye, 1 clevis Ø 12 mm (AFD1052KU),
- 3 Way Guy Collar (AFD1055KU),
- Double expansion dowel Ø 12 mm (AFD1062KU),
- Stainless steel shackle Ø 6 mm (AFD1070KU).

Characteristics

Reference :	**AFD1050KH**
Type of installation :	Lightning rod
Assembly :	Assembly of the lightning conductor and its masts on the ground and/or the pylon, installation of the 3-way guying collar, cutting of the 3 stay cables and installation at the level of the collar. Installation of anchor points and central support. Straightening of the lightning rod and/or pylon, connection of each stay, adjustment of plumb and final tightening.
Use :	Maintenance of lightning rod and/or pylon according to wind region.
Material :	Fiberglass – galvanized steel – stainless steel
Weight :	< 10 kg
Index of protection :	-

Franklin Technologie ® - A full range of lightning and overvoltage protection.
In the continue framework of its products, Franklin France shall be entitled to modify specifications without notice
