

## Lightning products

### Elevation rods and fixings

#### Water deflecting cone

In compliance with **NF EN 62305-3** standard

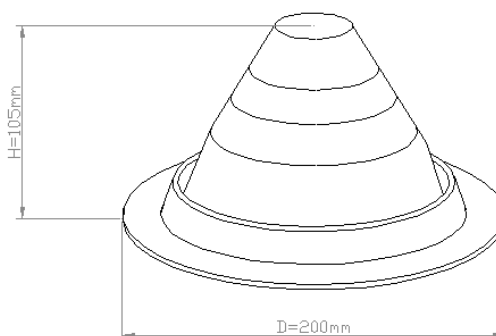

Water deflecting cone is used for avoiding problems of waterproofness at the roof level.

Lightning rod base or elevation rods are directly circled by the water deflecting cone.

Diameter of passage from 6 to 146mm

Exists in diameter of passage from 6 to 70mm, Ref AFD5001CE

#### CHARACTERISTICS

Reference :	<b>AFD 5002 CE</b>
Type of installation :	Waterproofness, through the roof
Assembly :	Installation according to drilling diameter and elevation rod diameter
Use :	To install around a lightning rod base or elevation rod
Display :	-
Conductors	-
Material :	Rubber EPDM / Aluminum
Dimensions :	Square base 203 mm
Weight :	0,180 g
Indice of protection :	-
Standards :	<b>NF EN 62305-3 - NFC 17102</b>
