

Lightning Products

Earthing systems

Protective tube

Protect down conductors against mechanical impact on a height of 2 meters.

Installed between control junction (AFK0080BC) and earth pit (AFK8001RV) or equipotentiality bar (AFK0020BE).

Exists in inox, ref AFK4204FP

Exists in treated steel for round conductor, ref AFK4201FP

Delivered with 3 inox collars and 6 screws H inox M6

CHARACTERISTICS

Reference :	AFK 4200 FP
Type of installation :	Lightning down conductor
Assembly :	3 inox collars to fix at 800mm of interval. Installation of the conductor inside the protective tube and clamping of the whole at the 3 collars level.
Use :	Protection against mechanical impacts
Display :	-
Conductors	Strips of section 27x2 to 33,5x3 mm
Material :	Galvanized steel
Dimensions :	40 x 4 x 200 mm
Weight :	1,26 kg
Index of protection :	-
Standards :	NF EN 62305-3 - NFC 17102

Franklin Technologie® - A full range of lighting and overvoltage protection.
