ESE lightning rod fixing kit + connector

Fixing

Connector

The connection kit for Active 1D[®], Active 2D[®], and Active 4D[®] Early Streamer Emission (ESE) lightning rods from the Franklin France range is a set of components specifically designed for installation on an extension mast and connection to a lightning down conductor.

This kit allows the lightning rod to be fixed onto a mast with an M20 threaded end and connected to a standardized lightning conductor.

Characteristics

Reference	AFB0001MG
Type of installation	Early Streamer Emission (ESE) lightning rods, range Active
Assembly	Lightning rod fixing by screwing and mast fixing by screwing at the mast end Ø35 mm M20 AFC1035MR
Connection	Connector for flat conductor (30x2 mm) or round conductor (Ø8–10 mm)
Material	Stainless steel
Dimensions	160 x 56 x 60 mm
Weight	400 g
Standards	NF EN 62561-1

Franklin Technologie[®] - A full range of lightning and overvoltage protection.
